[Section 1 - Welcome](#)

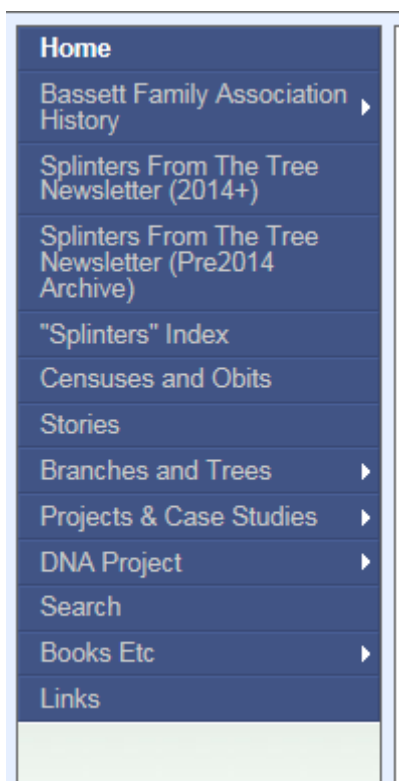

The following trees were added to the Bassett website database since the last newsletter:

512B. William Bassett of Nether Hall, Suffolk England (21 individuals)

513B. Frank Bassett of Youngstown, Mahoning County, Ohio (31 individuals)

Next month's newsletter will feature a 50th wedding anniversary photograph of the James Hervey Bassett family of Kentucky along with an interesting update on some new DNA results linking the Bassetts of Cornwall to the #2B Thomas Bassett Connecticut family.

We have added a new section to the website called "Censuses and Obits". When clicking on the link below, it will go to the next screen.

I have now included my working documents for census and obituaries at the website. You click on the link for a census year and it will open a word document that contains all of the census records that I have currently looked up for a given year. Some years are virtually complete (such as the 1850 US Census) while others currently only have several dozen. Along with the census information, it will also give the family number to show which family that census record belongs to if currently linked to a family.

In the obituary file, these are obituaries by state that I have not yet linked to any of the families in my records.

A sample of an 1851 census is shown below. Note this family is #22B165.2 in my master table.

Wendron Street in Helston, Cornwall from facebook. The building on the right is 9 Wendron Street and the shop Tobacco shop of Arthur Thomas Bassett. You can see the name Bassett over the door. The Bassett Butcher shop at 12 Wendron is the second building on the left, just past the brick building. There is a man with a white apron out front. Might that be one of the Bassett Brothers?
